PLANNING YOUR PARTY

THE INFLATABLES

Information for planning a party

When? The date of your party is very important to know ahead of time so we can make sure it's available on our calendar. Some weekends fill up quickly. When booking a party we would like to know at least two weeks ahead of time.

Location? Indoor or outdoor. As long as there is enough room for the inflatable and a power source is available then any location works. One thing to consider is if you will need to use a generator or not. We do have one that can be rented if a power source is not available.

Hours? Generally parties range from two to four hours. If it is a bigger event we usually do six or more hours. Prices vary per hour.

Inflatable(s)? Price varies for each inflatable. We factor in the hours and location to figure a price. You may rent more than one if available. Sometimes inflatables are not available so if there is one that you really want at your party please book ahead of time.

Age Group? One thing you need to consider is the age group of the children that will be attending your party. Certain inflatables are for certain ages. According to the Safe Inflatable Operators Training Organization children under the age of three should not be allowed in an inflatable unit because they do not have the coordination they need and have a high risk of getting injuries. If you have questions about this please let us know.

Generator? Our generator is available for rent if necessary for your party.
